

MOUNT OLIVE TRACK

Lakeland XC - Week 6 - 10/22/2023

For Team Scoring:

- If an age group has at least 5 runners in a race, the first 5 finishers also becomes eligible to score points towards a team point total. (There is a twist/rule including the 6th and 7th finisher, we won't worry about covering that here because it can be confusing but can explain it to anyone that would like to know)
- After the race, the list of all runners overall placements are recalculated by filtering out runners not eligible for make a team score (all runners from towns having less than 5 runners in the race)
- Team Scoring Points are then reassigned by the new filtered placement, with the **LOWEST** point total being awarded 1st place, next lowest total 2nd place etc.

Example - Mt Olive has 5 runners competing in the 13-14 Boys race and is thus eligible for a team score. An MO runner places 1st overall, and the next MO runner to finish places 3rd overall. The 2nd place runner between them, who is from another town, doesn't have enough teammates to create a 5 person team score. That means the MO runner in 3rd place is moved up to be awarded the 2pts from the 2nd place.

This is why in scoresheets you'll regularly see something like a runner who finished 37th overall for placement being awarded 28pts for their team score, they had finished 28th for team runners.
